

Automated Lead Generation Plans

Choose the plan that matches how you want to grow your business

HOW IT WORKS

VARPEC's automated lead generation system finds targeted buyers for your products every single day. Depending on your plan, we either deliver the contacts to you, send outreach on your behalf, or run a fully automated campaign across email, WhatsApp and phone calls. Every plan includes a free trial of 15 to 20 leads before you commit.

OUR PLANS

	STARTER	GROWTH	PREMIUM

Interested Lead Alerts	No	Yes	Yes
Google Sheet Dashboard	Yes	Yes	Yes
Free Trial	15-20 leads	15-20 leads	15-20 leads

PLAN DETAILS

Starter Plan — \$99 per month

Best for businesses that want to handle their own outreach but need a consistent daily supply of targeted contacts. Our system delivers 50 fresh, targeted buyer contacts every day directly to your Google Sheet dashboard. Each contact includes name, phone number, email address and business category. You decide how and when to reach out.

Growth Plan — \$199 per month

Best for businesses that want leads found and contacted automatically without lifting a finger. Our AI bot sends a personalised email to every contact on your behalf every day. You simply write your message once and our system handles the rest. When a buyer replies with interest, you receive an instant alert with their full details. You only speak with people who are already interested in your product.

Premium Plan — \$399 per month

Best for businesses that want a fully automated sales machine running around the clock. Our system contacts every lead through email, WhatsApp message and an AI phone call. The AI speaks naturally with each prospect, explains your product and qualifies their interest. If they say yes, you receive an instant mobile notification with their details. You focus entirely on closing deals while we handle everything else.
